TAKE SIMMONS LIVER REGULATOR

This unrivalled Medicine is warranted not to contain a single particle of Mercury, or any injurious substance, but is

PURELY VEGETABLE.

For Forty Years it has proved its great value in all diseases of the Liver, Bowels and Kidneys. Thousands of the good and great in all parts of the country vouch for its wonderful and peculiar power in purifying the Blood, stimulating the torpid Liver and Bowels, and imparting new Life and Vigor to the whole system. SIMMON'S LIVER REGULATOR is acknowledged to have no equal as a

LIVER MEDICINE,

It contains four medical elements, never united in the same happy proportion in any other perparation, viz: a gentle Cathartic, a wonderful Tonic, an unexceptionable Alterative and a certain Corrective of all impurities of the body. Such signal success has attended its use, that it is now regarded as the

BOLDLY FACE THE FUTURE.

To sit in idleness and brood over the misfortunes of the past is both foolish and unwise. The past is beyond recall. As well might you try to restore the dried up mummy to life and beauty as to live over the past, and correct the mistakes committed. It is gone, buried beyond resurrection, and is as worthless as a dream, except as an example for the present and future. To back into the future with your face towards the past, is to stumble through life, and repeat the errors that experience should have taught you to avoid. Let the past go, for to waste time idly, wishing its return, is to blind yourself to the realities of the present, and fits you for nothing but a helpless wanderer in the future. Look ahead! If you have seen trouble, turn your back upon it, and press forward, determined to deserve success. Some people never recover from a misfortune. Once down, they remain down forever. They make no effort to get up. They prefer to keep down, and appear to enjoy a secret satisfaction in telling others what they have been, and what they might have been had good fortune continued to smile upon them. Others shake off trouble as a duck would the water. It makes no other impression upon them than to make them a trifle wiser. You can't keep them down. Knock them off their feet, and they are up in a twinkle, and go ahead as bravely as if nothing had stopped them. All they ask is health and strength. Their courage is equal to every emergency. Like the blooded racer, though distanced at the start, they never give up the race until the home stand is reached. In a word, they do their best under all circumstances, and in doing this, generally do well enough. It is bad enough for an old man, who has put forth his strength and failed, to become discouraged, and drift into the rushing current of fate with no effort to stem it, but for a young man, or one in his prime, who has brain and muscle in perfect order, to give up, and drift with a tide that he could easily overcome is without the shadow of an excuse. What if you have lost money or failed in business? Can these trifling troubles excuse idleness when extra exertion is required? Yesterday has fled from your reach; to day is yours; to-morrow may be full of sunshine to your darkened hopes. Let the past go; rear a tombstone over it if you please, but cease to dwell over its grave. The world is before you; ripened fields await your labor; you may retrieve all, and win even more than you had. The little vexations of life are but the axe-strokes that chip and deface the young oak, but fail to retard its growth. Nature heals the wound, and the young tree to its full proportion. So the vital element of man's life, if hope remains uncrushed, will heal the wounds of the past, and out of the of yesterday weave the glorious triumph of to-day or to-morrow.

LET A WISE POLICY BE ADOPTED.

How important that our people—our farmers and planters—should learn practical wisdom. They are now picking their cotton and preparing it for market. The season has been backward, and whether the crop will be a two-thirds one will much depend upon the weather of October and November. Should it be still less, as it may be, then will those who disregarded our advice to plant less of the "great staple" and more of the "staff of life" feel sorry they did not pursue the wise course. Like Ephriam of old, too many of our producers are joined to their idol and they cling to it even in the very face of ruin. It is foolish; it is wrong.

Now we feel a deep interest in this section. We want it to become rich, and powerful, and commercially independent. This is possible, but it never will be realized so long as so little attention is paid to diversfied agriculture. Properly cultivated cotton will do well here, but it is a mistaken policy to pay almost exclusive attention to its cultivation and scarcely any to everything else. We repeat it, this is all wrong, and the policy must be changed. In addition to cotton we must raise a surplus of bread stuffs, make our own meat, put our excess of grains into droves of horses and mules, have large herds of cattle grazing upon fields of native grass, and sheep browsing upon every farm. We must get our farmers interested and feel a pride in their greatly improved stock and their wives delighted with purses well filled from the products of the dairy and the poultry yard. Then the "better time" we all so much desire will speedily come. Then this country will become rich and independent.

The yellow fever has prevailed to an alarming extent at Shreveport, La., and has been creating a panic at Memphis, and other points in Tennessee. The last reports are that it is gradually abating.

PRESIDENT GRANT.

There were many honest and well meaning people in the United States who doubted the fitness of Gen. GRANT to fill the Presidental office. He was a victorious soldier and as such was presumed to be entirely unfamiliar with the administration of civil affairs. These all felt fearful that when it suited his purpose usurpations and violations of the Constitution would be frequent. They said all this was to be expected from a military President. But what has been the fact? Gen. GRANT has now occupied the Executive chair of the nation over five years and during all that time not one of his predecessors has more carefully kept within the sanction of civil authority in all their acts than he. No matter what the excitement or pressure, he has ever the while thoroughly and firmly maintained the authority of the law.

Gen. GRANT has proven to the country that he posesses the executive qualities especially needed in a chief Magistrate of a great Republic. Those who know him best are impressed with his tranquil firmness when his duty seems to him clear. At these times he cannot be moved from his purpose. Those who served nearest him in the field say they never knew him in the wildest whirl of battle to lose his self possession. The more threatened the danger the cooler and calmer he became. With such a man at the head of the nation there need be no fear.

A correspondent from New York writes, saying:

Now that matters have become comparatively quiet and men begin to review the occurences of the past seven or eight days, nearly everybody has come to the conclusion that a more senseless panic never has prevailed, because in the first place the country was never in a more prosperous condition. Good crops have been made all over the country. The cotton crop is still on hand and unsold. The world is obliged to have it, and even should every bank in New York who has been dabbling in speculative stocks fail, cotton would command gold. If your people will only have a little patience and sustain the Banks which control the funds to move this crop, gold will come from Europe to buy the cotton and all things will get easy once more. In fact, I really believe that the crisis through which we have passed, and are passing, will be productive of good. During the past eight years railroad corporations have been floating bonds to the amount of nearly six hundred million of dollars. Now that the bubble has burst, these various corporations will no longer be competitors in the money market and just so much more capital will be left for the purposes of legitimate trade.

THE EVANGELICAL ALLIANCE.

The sixth General Conference of the "Evangelic Alliance," and the first ever for the United States, commenced its session at New York on Friday last. There are representatives from Spain, Italy, Austria, Turky, Persia, India, China, and the Islands of the sea. All these are men of faith, of work, of honored usefulness in the church and the world. This country has never before held such a representation of Christians of other lands. It marks an era in the history of the church, and will be memorable in far distant futnre.

THE COTTON CROP.

The Agricultural Department makes the followiug report on the condition of the cotton crop:

The indicated increase of area is a little over ten per cent. The condition of the crop is higher than in September of last year in Arkansas; the same in Tennessee and Louisiana. In each of the other cotton States the worms have been more abundant, yet their ravages have been disastrous or sweeping but in few cases. The season has been remarkable for its rain-fall, tending to a further depreciation of the crop.

The Modoc assassins were hanged on the 3rd. Two of them had their sentence commuted by the President to imprisonment for life at Alcatraz Island, San Francisco Harbor. The ground for the action of the Executive is that the Indians were not chiefs, but stood in the relative position of private soldiers obeying the orders of their commander, Capt. JACK.

"The President of the United States cannot violate the law"—*Gen. Grant*.

These are the memorable words used by President GRANT in reply to the Bankers, Capitalists and Lawyers who of New York so strongly urged him to exercise *illegal* power to relieve the monetary affairs of the country. All honor to him for his firmness and integrity.

The Norfolk *Journal* has been succeeded by the Norfolk *Landmark*. It is now owned by J. BARON HOPE & Co., and is edited by Mr. HOPE, late of the *Virginian*. The *Landmark* is a live and spirited daily and we always read it with interest.

The Graphic Balloon has started for its European trip at last. It left New York on the 6th inst. Its occupants are WASHINGTON H. DONALDSON, GEORGE WASHINGTON LUNT and ALFRED FORD.

The Norfolk Fair opened yesterday. The weather was rather unfavorable.

The latest quotations from New York are: Gold 110, and Cotton 19½.

The recklessness of balloon ascension was fatally illustrated last week at Wapello, Iowa, in the case of J. W. Baile an acronaut. The balloon was inflated with hot air, and left the ground with Bailey hanging by his hands to a horizontal bar beneath. Just as it started it took fire near the mouth and Bailey did not, apparently, notice the fire until he was too high to let go with safety, but hung on until he had reached an altitude of 1,200 to 1,500 feet, when the hoop from which he was suspended burned away and he fell striking the earth a quarter of a mile from the point of starting. He was instantly killed. On another day Prof. Fisher made an ascension at Yonkers. He floated gently westward and decended with considerable rapidity into the Hudson River, nearly opposite that place. Great excitement prevailed for some time, but he was reached finally by boats and taken ashore with his balloon.

Gen. J. D. Imboden has brought a libel suit for $25,000 against a newspaper in West Virginia.

Cotton and Credit.

We have a terrible screed from one N. H. Davis of Atlanta Ga., which shows that the cotton planters have been growing poor every year since the war because they do business on the credit system, and that if they keep on they will, in the end, become bankrupt, every one of them. His position is that whatever cotton is produced should be clear profit; and that whatever it costs to grow it should be made off the farm, with corn, potatoes, oats, sheep, and the like. The planter alleges that he can grow a bale of cotton worth $80 for $20, which is granted, but this $20 is not all, for the supplies and the clothing of the family, corn for the mules, implements, and many other things, are but one credit, and at least, 20 per cent. more is paid than they could be purchased for with cash. Further, the grain that is bought by the seabord planters, coming as it does by New York or Baltimore, is, on account of the damaged condition in which it usually arrives, not worth near as much as nubbins raised on the plantation. Then there is the article of guano or other fertilizer, which every cotton planter buys at an average cost of $50 a ton. Mr. Davis is sound in saying that this is money thrown away, for if 10 sheep are kept for every acre of cotton planted, as should be the case, they will furnish manure enough, which will not be adulterated. In addition will be the increase and the value of their meat and wool. The factor, says Mr. D., is the planter's master; he tells him how much to plant and how much provision to buy, which he furnishes on credit; then he takes his cotton fixing prices both ways, and when the year closes the balance is carried over, charged with interest, where by the planter is constantly falling behind. The trouble lies in every man undertaking to grow all the cotton possible and wholly neglecting to grow supplies, and hence it is that mortgages and trust deeds are at from 12 to 18 per cent., which cannot end otherwise than in ruin. The only remedy is to balance the amount of cotton with supplies; the planters can thus at least stop from getting deeper in debt, and in time make themselves freemen indeed.—*Tribune*.

Beecher on the Panic.

There is no manifestation of human nature more curious than that of which we have had so much recent experience, and which we agree to call a panic. What is a panic? It is the dethronement of common sense, generosity, trust, courage, hope, sympathy, under the solitary absolute despotism of terror. For the time being, the regular ordinance and government of the man are set aside; and the mystery is in the hands of the most fluttering, pale and disorderly of the passions. It is not only the temporary dissolutionof the individual order; it is the temporary dissolution of the social order as well. Under its influence, human beings forget honor, self-respect, courtesy, and the most obvious dictates of prudence; and crazily enhance and precipitate the very catastrophe from which they seek to flee. Children have panics; and then they trample each other to death, and in cowardice drag upon themselves a destruction which courage would not have been able to brave. We expect such things in children: But the worst panics are among grown men. They are subject to panics of all kinds—millitary, religious, political, pecuniary. While it lasts, men are mad-men-irresponsible, ferocious, foolish; and they should be treated accordingly. The very word panic reveals in its etomology the instinctive belief that the thing it describes is a species of dementia. The word arose out of the battle of Marathon. In that immortal fight a mere handful of Greeks encountered an infinite host of Persians and put them to utter joute. How did they do it? The Persians were smitten by the god Pan with a sudden causeless and extreme fright. They lost their wits; and that state of things took its name from the god who produced it. With people in a panic you cannot reason; for they have no reason left. They are to be treated as lunatics *ad interim*.

To the Farmers.

1. Only good farming pays. He who sows or plants without reasonable assurance of good crops annually had better earn wages of some capable neighbor, than work for so poor a paymaster as he is certain to prove himself.

2. The good farmer is proved by the steady appreciation of his crops. Any one may reap an abundant harvest from a fertile virgin soil; the good farmer along grows good crops at first, and better and better ever afterward.

3. It is far easier to maintain the productive capacity of a farm than to restore it. To exhaust its fecundity, and then attempt its restoration by buying costly commercial fertilizers, is wasteful and irrational.

4. The good farmer sells mainly such products as are least exhaustive. Necessity may constrain him for the first year or two to sell grain or even hay; but he will soon send off his supplies in the form of cotton, or wool, or meat, or butter and cheese, or something else that returns to the soil nearly all that is taken from it. A Bank account daily drawn upon, while nothing is deposited to its credit, must soon respond, "no fund." So with a farm similarly treated.

5. Rotation is at least negative fertilization. It may not positively enrich a farm; it will at least retard and postpone its impovishment. He who grows wheat after wheat, corn after corn, for twenty years, will need to emigrate before the term is fullfilled. The same farm cannot support (or endure) him longer than that. All our great wheat-growing sections of fifty years ago are wheat-growing no longer, while England grows large crops thereon the very fields that fed the armies of the Saxon Harold and William the Conqueror. Rotation preserved these, as the lack of it ruined those.

Patronage that Pays.

That noble institution, the Public Library of Kentucky, has permanently established its prosperity by the three gift concerts it has already given under its charter. It now boast of a building that cost $210,000, with a Library of over 50,000 volumes, and a magnificent cabinet. The fourth grand gift concert for its further endowment will take place December 3d, and at this concert $1,500,000 cash is distributed to the ticket holders, the highest prize being $150,000, and scaling down to prizes of $50, which is the smallest sum given. As there is a prize to every fifty tickets, it is easy to see that the patronage of this concert is a patronage that pays, there being great chances of great gains, and only small chances of small losses. Hon. Thos. E. Bramlett, late Governor of Kentucky is the manager, and tickets an information may be obtained by addressing him, at Public Library Building, Louisville, Ky.

DR. WISTAR'S WILD CHERRY BALSAM.—This Balsamic compound has become a home fixture. Let all who suffer, and have in vain attempted to cure their coughs, colds, bronchial or pulmonary complaints, make use of this unequaled remedy. It can be relied upon, the mass of testimony that has been published since its introduction, being ample proof of its efficacy.

Facts for Thinking People.

There are a few, perhaps half a dozen sewing machines of real excellence, differing from one another more or less in principle, construction and adaptation; one being suitable for tailoring, another for bootwork, another for family use, &c., &c., the rest are inferior, and by far the greater number *comparatively worthless*.

It is noteworthy that the sewing machine for the highest premium was awarded at the world's Fair in New York in 1853, long since sunk into merited oblivion. The past fifteen years has seen numerous machines, with high sounding pretensions, rise with a flourish, confound the simple and vanish. So will it be while credulity lasts. *Time* tries all things. *Use* only furnishes the final test. As the purchase of a Sewing Machine is, or may be, the act of a lifetime, care should be taken to get what *time* and *use* have approved.

During the past six years the Howe Machine Co. have made and sold over 400,000 Machines, and to-day, though manufacturing at the rate of one per minute can hardly supply the demand. What better evicence is needed to prove that the public have decided that they are *the best*. F. L. KURTZ, Hertford & Elizabeth City.

Georgia Girls Competing as Cooks.

The Atlanta *Constitution*, referring to the Georgia State Fair, says:

The great contest of the Rome fair has been that between the girls for the best dinner. The result of the contest has been looked to with eager interest, and the awards were delivered amid rousing excitement. The best cook among these contending charmers was decided to be Miss Hattie J. Johnson, to whom was awarded the first premium in the shape of the John B. Gordon cooking stove. To Miss Octavia Shropshire was given the second premium. This second premium was the R. E. Lee stove offered by Messrs Seay & Walker. The committee found it hard to decide. They recomended that $20 be given to Miss Alice Camp, a twelve years old girl, for the excellent dinner she concocted. They also recomended $10 to Miss E. J. Shropshire. The awarding of the premiums was very exciting.

The Grangers Responsible.

The Granges, under which designation we include those classes who for the last year or so have made open war upon railroad corporations, can credit themselves largely with the stock broker's tumble in New York and Philadelphia. Had J. Cooke and & Co. been able to have disposed of the Northern Pacific bonds they could have met all demands in the regular course of business, and had there been no organized crusade against the railroads cropping out most effectually in the municipal and repudiation of bonds, there would have been no difficulty in continuing such negotiations. No money stringency in New York will effect the West and seriously reduce the values of products. It is a question, therefore, whether it pays for one great interest to attempt to seriously cripple and impair another.—*St. Louis Paper*.

The *Western Planter*, Kansas City, Mo., has recently been increased in size and improved in appearance.

Holland and Belgium, as well as France and England, complain of short supplies of breadstuffs. So there cannot fail to be a large foreign demand up to next harvest.

A most wicked fraud has agitated the butter market in Lewiston, Me. Traders there have been astonished to find beautiful butter balls composed of a big ward of tallow with a thin crust of honest butter outside.

General Henry C. Wayne, in a recent speech before the city council of Savannah, said: "Ignorant and designing politicans have proclaimed the negro as an idle improvident and dissolution race; but I submit to the good sense of this chamber, made up as it is of our first and best merchants, whether or not four millions of people, white or colored, who in six years have laid up $26,000,000 over and above their wants can be idle, improvident or dissolute; and if such people, who have shown themselves to be saving, are not deserving of encouragement and of instruction in the investment at home that will tend to the benefit of the commonwealth, of which, with ourselves, they are an essential element, and from which they as well as we are to derive our own living and well being, and a good footing for our posterity."

ASIATIC CHOLERA IN CHINA.

Almost every case cured with

PAIN-KILLER.

DEAR SIRS: During a residence of some ten years in Siam and China, as a missionary, I found your Pain-Killer a most valuable remedy for that fearful scourage the Cholera.

In administering the medicine I found it most effectual to give a tea-spoonful of Pain-Killer in a gill of hot water sweetened with sugar; then, after about fifteen minutes, begin to give about a table-spoonful of the same mixture every few minutes until relief was obtained. Apply hot application to the extremities. Bathe the stomach with the Pain-Killer, clear, and rub the limbs briskly. Of those who had the Cholera, and took the medicine faithfully, in the way stated above, eight out of ten recovered.

REV. R. TELFORD, Missionary in China.

DEAR SIRS: During a long residence in China I have used your valuable Pain-Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the Summers of 1862 and 1863, while residing in Shanghai, I found it an almost certain cure for cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them and opens a door of usefulness. In diarrhea, colic, vomiting, cholera, coughs, etc., your Pain-Killer has been my chief medicine. Yours, very truly,

REV. T. P. CRAWFORD, Tungchow, China

Those using Pain-Killer should strictly observe the following directions:

At the commencement of the disease, take a teaspoonful of Pain-Killer, in sugar, and water, and then bathe freely across the stomach and bowels with the Pain-Killer clear. Should the diarrhea and cramp continue, repeat the dose every fifteen minutes. In this way the dreadful scourage may be checked and the patient relieved in the course of a few hours.

N. B.—Be sure and get the genuine article and it is recommended by those who have used the Pain-Killer for the cholera, that in extrem cases the patient take two (or more) teaspoonfuls instead of one.

The PAIN-KILLER is sold by all the Druggists and Dealers in Family Medicines.

Price, 25 and 50 cents and $1.

ALBEMARLE & CHESAPEAKE CANAL COMPANY!

The annual meeting of the Stockholders of the Albemarle & Chesapeake Canal Company will be held at their Office in the city of Norfolk, on Thursday, 23rd inst., at 12 M.

B. F. TEBAULT,
16-2t. Secretary.

MANHOOD: HOW LOST HOW RESTORED.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of SPERMATORRHŒA or SEMINAL WEAKNESS, Involuntary Seminal Losses, Impotency, Mental and Physical incapacity, Impediments to Marriage, etc., also CONSUMPTION, EPILEPSY and FITS, induced by self indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cent.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

This lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two postage stamps.

Also, Dr. Culverwell's "Marriage Guide." price 50 cents.

THE GREAT REMEDY FOR

CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

KATHAIRON

Only 50 Cents per Bottle.

It promotes the GROWTH, PRESERVES the COLOR, and increases the Vigor and BEAUTY of the HAIR.

OVER TWENTY YEARS AND LYON'S KATHAIRON FOR THE HAIR was first placed in the market by Professor R. Thomas Lyon, a graduate of Princeton College. The name is derived from the Greek, "KATHRO," signifying to cleanse, purify, rejuvenate, or restore. The favor it has received, and the popularity it has obtained, is unprecedented and incredible. It increases the GROWTH and BEAUTY of the HAIR. It is a delightful dressing. It eradicates Dandruff. It prevents the Hair from turning gray. It keeps the head cool, and gives the hair a rich, soft, glossy appearance. It is the same in QUALITY and QUALITY as it was over a QUARTER of a CENTURY AGO, and is sold by all Druggists and Country Stores at only Fifty Cents per Bottle.

Woman's Glory is Her Hair.

LYON'S KATHAIRON

FOR SALE.

I offer for sale one twenty-four horse power No. 1 Portable Steam Saw and Grist Mill attached, together with three pair log wheels, six chains etc. Also one set blacksmith tools, consisting of bellows, anvil, vice &c., for the moderate sum of $2500 to be paid as follows: Not less than $1600 or $1800 cash when the property is delivered, and the balance payable six months thereafter, with interest thereon. The mill is in good order and will be at work almost every day, Sabaths excepted. All persons who wish to purchase can come and view for themselves. Near Murfresboro, N. C.

NORTH CAROLINIAN

WEDNESDAY, OCT., 8, 1873.

☞ TO NORTHERN VISITORS. ☜

Elizabeth City is 50 miles South East of Norfolk, Va. Parties coming Here from the North should take passage on the Bay line steamers which leave Baltimore at 4 P. M. every evening, and arrive at Portsmouth the next morning in time to connect with the Elizabeth City Steamers daily.

THIS WEEK'S ADVERTISEMENTS.

We call attention to the following new advertisement this week:

New York Advertisement.

Albemarle & Chesapeake Canal Company.

Grand Gift Concert.

Executrix' Notice.

Manhood: how lost how Restored.

Local and Personal.

☞ How true it is that a man in earnest always finds means. If no other resource is left he *creates* them. Such men are apt to succeed.

☞ A correspondent informs us that on the 30th ult., near Greenville, Pitt county, during a quarrel between Dr. FAIT and EUGENE HOLLIDAY the latter drew a pistol and shot the Doctor through the head, killing him instantly.

☞ The individual who sent us a post-card with "enclosed please find Two Dollars for the CAROLINIAN" failed to enclose the money. The truth is, money can't be enclose well in postal cards. Try again.

☞ The panic in the North is about over, and we do not believe it will seriously injure us here. There is now no apprehension of any wide spread commercial disaster. The same money is in the country there was before and people will soon get tired of carrying it around in their pockets and will soon put it in circulation.

☞ We hear of soveral bachelor friends with whom old father Time has had a long acquaintance, seriously contemplating putting an end to their loneliness and misery by stepping off into matrimony, with young and handsome brides to cheer them. We mention no names, but expect soon to be able to make the announcements in due form. May they all be happy, and find their fond anticipations more than realized.

☞ A correspondent from Gates County writes us saying that business prospects are improving. A party are erecting a large Steam Saw Mill on the Chowan River, about seven miles from Gatesville, and a number of Cotton Gins have been put up in different parts of the County ready for operation in this year's crop. Both the cotton and corn crops have suffered from the heavy rains of August and September.

☞ Northampton County is now a part of this Judicial District. Her court was held a couple of weeks ago, presided over by Judge ALBERTSON. A friend writes us that he and Solicitor BAGLEY both made a fine impression there. They are filling their offices with ability and to the entire satisfaction of the public. The people of the First District have cause to feel proud of their Judge and Solicitor.

☞ In addition to the other contemplated manufacturing establishments at this place that will be put in operation as soon as the railroad is built, we hear of a party who have decided to build a factory for the manufacture of Cotton Yarn. The railroad will make our city a manufacturing centre, and there is not a farm or a citizen all the way from the Virginia line to Edenton that would not be largely benefitted by it. But remember that all depends upon the railroad.

☞ A subscriber complains to us that when his CAROLINIAN—on which he pokes—gets to him, it is torn open and nearly worn out by clandestine hands thumbed for hungry eyes. Now, we don't object to Uncle Sam's country Post Master's acquiring knowledge; in fact, all things considered, we are in favor of it. But we don't like our subscribers being kept waiting until they have read all the news. So the man who does it will please—don't.

☞ A very intelligent gentleman from Wilmington Del., who has made several visits here writes us:

"Since my last visit to Elizabeth City I have talked with many persons of the rich lands of Pasquotank and adjoining counties and I find the feeling is turning strongly toward the South. Generally the first question asked is: Have they railroads? The lack of this is your great drawback. Let your people render the needful aid to build the road and I am confident that you will have a large emigration from this and other States to your beautiful country."

☞ The cotton pickers are now busily at work and, though at least two weeks later than usual, we are glad to learn that, with a few exceptions, our planters are going to gather a better crop than they expected a fortnight ago. And the staple is demanding a good price. This is having a marvelous effect upon the elongated countenances we met on all sides ten days ago. With the financial panic passing over and a paying price for cotton and corn, our farmer friends will not have serious cause for complaint.

☞ We have seen a letter from New York dated October 1st, from the contractor of the Atlantic Coast Railway Company, stating that the financial panic will not seriously embarrass his operations and that he has all his arrangements completed to begin the work *at once*. The Company have decided, as all the while stated, not to begin until the promised subscriptions are made. We also have the assurance of the manager of one of the most responsible firms of New England, made since the panic, that he would furnish the iron and rolling stock as soon as the road was graded and cross tied from Norfolk to Edenton. The fact that there has been no public agitation must not be taken as evidence of the enterprize being abandoned. Important work has been going on all the while, and the friends of the road are as sanguine as ever about the ultimate results.

☞ The public letting for the repairing of Knobb's Creek Bridge and Road, and the Newbegun Creek Causeway took place at the Court House on Monday. The bidding was lively, especially for the latter, but resulted in both being knocked off to the County—the former at $1000, the latter at $800

☞ As already announced, the first Fair of the Albemarle Agricultural Society will be held on the 6th and 7th days of November. The premium List is published on our first page. It will be seen that it embraces almost every department and a large number of articles, and it is earnestly hoped that everybody will feel local pride and personal interest sufficient to make it a point to do something to prepare *some* article to enter in as many of the departments as possible Late as it is—and the Committee could not fix the time any earlier this year—the Fair can be made a very creditable one for this section and district. There is some good native stock—horses, cattle, sheep and hogs. Let them be brought to the Fair. Of corn, cotton and the late vegetables there can be made a good showing. So too can there be an exhibition of the late fruits. Then the Mechanics and the Dealers in implements and Machinery can aid by samples of their skill and business. And above all THE LADIES *can make the enterprize a certain success* by earnestly taking hold and filling up the Household and Family Article departments. They *can* do this and we believe they WILL.

☞ The Managers of the Fair are doing everything in their power to make it a success. They propose catering both for the instruction and amusement of the people. Several new features, to "fill the bill" in the latter particular, will be duly announced. But it is doubtful whether they will try so doubtful an expedient as was adopted at the late Fair at Antwerp, N. Y. There a premium was offered to the man who had *longest worn a pair of pantaloons!* It is said there were several competitors. The Reporter writes that one PETER WORMER got the award, and that he had on a pair of "trousers" awful to behold. They looked as though they had been worn by his grandfather several years previous to his first marriage! The historical coat of Joseph, with its many colors, much darned; great amount of patching, and supposed variety of holes was nothing in comparison with the bifurcated garments worn by PETER. He resembled as he walked upon the stand, the admired of all observers, a badly demoralized rainbow, just recovered from the effects of an electioneering spree. Of course everybody laughed and PETER went his way rejoicing with the $5 premium in his pocket.

LOCAL POT-POURRI.

Too thin—Summer clothes. Worth two in the hand—a thorn in the bush. Long division—a divorce. Evening papers—curl papers. The first stirring event of the day—stirring one's coffee. The oldest lunatic on record—time out of mind. A natural report—an echo. A soft thing—a hot pudding. A fair thing—an agricultural horse trot. Spicy—the pepper market. The right thing to be intoxicated with—delight. To learn the value of money—try to borrow some.

LOCAL BRIEFS.—Hon. C. C. POOL and family left for Washington City on Thursday last.—The new Street Lamps have been put up and now the "light" question will be all right.—Get ready for the Fair.—Mrs. LABOYTAUX has gone North for new goods.—Our young friend THOMAS GASKINS, who has been "Out West" over a year, is on a visit home again.—All the families have returned from Nag's Head.—SALOMONSKYS have gone for their Fall and Winter stock.—Mrs. CELPETTER has moved her Millinary establishment into the building lately occupied by Mr. WHEDBEE as a shoe store. She is now on her way to Baltimore for her new stock.—They are making excellent Flour and Meal at the Mill of HERSHEY & Co.—The city authorities are having the streets repaired in a manner worthy of commendation. C. C. ALLEN'S "Excelsior Cotton Gin" is a nice thing. It is run by every press by little engine.—We can't brag any of the weather.—The County Commissioners will hold an adjourned meeting on Saturday.—Hon. C. L. COBB left on Monday for Washington, to be absent eight or ten days.

A curious and beautiful effect was lately produced with a block of manufactured ice in the course of experiments in Philadelphia. In the centre of the cake completely enclosed by the translucent materials, was a bouquet of fresh flowers. Every leaf and blossom was perfectly visible, while the brilliancy of the colors was enhanced by the refraction through the ice.

The oft mooted question whether the purchase of a railway ticket entitles the passenger to a seat, has again been decided in favor of the passenger by the courts in Indiana. The plaintiff in the case refused to give up his ticket until provided with a seat, and was removed from the train by the conductor. It was shown on the trial that the cars were crowded and that there was no seat with which the conductor could have furnished the plaintiff; but the court held that the company haven taken the passenger's fare, was bound to provide him with the usual and proper accomodations. The damages were assessed by the jury at the sum of $2,000.

NATURAL DECAY—PROTECTED THE SYSTEM.—The human body is a machine, and therefore cannot endure forever; yet, like a watch or a sewing machine, it will last much longer if properly regulated and duly repaired, than if no pains were taken to keep it in order. The great object of every one who desires a long and healthy life should be to put his body in a condition to resist the life threatening influences by which, we are all, more or less surrounded; and no malignant and corrective at present known so especially answers this purpose as the vitalizing elixir which, under the unpretending name of Hostetter's Stomach Bitters, has been for more than twenty years the standard tonic of America. In crowded cities where the atmosphere is contaminated with the effluvia inseparable from large populations; in marshy regions, where the soggy soil reeks with miasma; on the prairies and in the forests, where every fall the air is tainted with exhalations from rotten woods and grasses, or decomposing leaves—in short, in every locality where the malaria exists, this powerful vegetable antidote is urgently needed. Fever and ague, billious fevers, dysentery, congestion of the liver, jaundice, rheumatism, and all diseases which are generated by infected air, impure water, or sudden changes of temperature, may be averted by strengthening and regulating the system in advance with Hostetter's Bitters. Autumn is always a season of peril, especially to weak, susceptible organizations. Even the more vigorous are apt to be in some measure depressed by the humid atmosphere, loaded with deleterious gases produced by vegetable decay. The fall is period of the year when the restoration and regulation of the living machine is peculiarly important, and the Bitters should therefore be taken daily at this critical season.

Beware of Counterfeits!

JOB MOSES' SIX JAMES CLARKE'S WHALE PILLS

Are extensively COUNTERFEITED. Dishonest Druggists endeavor to sell the counterfeits to unwary people. The genuine have the name of Job Moses on each package. All others are worthless imitations. The GENUINE Pills are unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate all excessive and cure all suppression of the menses when caused by cold, inflammation, or disease. In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, they will effect a cure when all other means have failed, and although very powerful, contain nothing deleterious to the most delicate constitution.

Circular in English German and French around each bottle gives full direction and advice.

The GENUINE Pills are sold at most drug stores, but if your druggist cannot supply the GENUINE, do not be persuaded to accept any counterfeit or bogus article in its stead. One Dollar is the price. Address, Job Moses, 18 Cortlandt Street, New York, with name of express office at which you will call for the package, and a bottle of the GENUINE Pills accurately and safely packed in plain wrappers will be sent by return express.

PRATT'S ASTRAL OIL. Absolutely safe. Perfectly odorless. Always uniform. Illuminating qualities superior to gas. Burns in any lamp without danger of exploding or taking fire. Manufactured expressly to displace the use of volatile and dangerous oils. Its safety under every possible test, and its perfect burning qualities, are proved by its continued use in over 300,000 families.

Millions of gallons have been sold and no accident—directly or indirectly—has ever occurred from burning, storing or handling it.

The immense yearly loss of life and property, resulting from the use of cheap and dangerous oils in the United States, is appalling.

The Insurance Companies and fire Commissioners throughout the Country recomand the ASTRAL as the best safeguard when lamps are used. Send for circular

Saving Corn Fodder in the South.

In answer to an inquiry from North Carolina, I will give my way of saving corn stalks here, where I suppose we raise pretty much the same corn, as to kind and size. I think the plan I describe is followed in the Middle and Western States. Take the center of a space 10 hills square, then go around twice, cutting with one hand and holding the corn in the other, setting the corn into the corners made by the foun tied hills, as fast as you have as many stalks in your hand as you can conveniently hold, three hills being generally enough in good corn. When you have gone twice around you have a shock of 25 hills, standing straight and true, with the buts well on the ground, if you have been careful; then go around once more, cutting two rows, at a time, throwing the stalks with the tassels toward the shock, in small heaps, as near the shock as convenient. When those two rows are cut you have cut down 100 hills, and you must set up those stalks carefully around the shock, not putting them up all one side at a time, but putting up on opposite sides, straight, carefully, and especially with all the buts to the ground. To tie it I take a rope with a loop in one end, stick one end in the shock as high as my head, walk around it and draw the other in the loops, and then tie the shock with two bands made each with two lengths of rye straw tied together. In corn yielding 40 or 50 barrels to the acre (shelled corn) a good hand will cut and put up an acre a day. If well made, these shocks will stand all Winter, and in the Spring the corn will be found as sound and the fodder as bright as the day they were put up. To feed it, go to the field with the wagon, untie the bands, husk the corn into the wagon, and with the rie bands tie the stalks in two or more bundles. Husk enough at one time to last two or more weeks, or rather, as much as you have room in the shed, feed-room, or barn floor to store away stalks without having to put them in a loft, and you will find it as nice and as cheap feed as ever you made; it is coarse feed, and no stock will eat the large butts, but cut when yet juicy, they rot quickly, and make fine manure. A correspondent from Yorktown, Va., states that the reason stalks are not saved more in the South is on account of the kind of corn, being larger than in the North. I disagree with him. I think the reason is because the Southern farmers do not know how to manage. Some fifteen years ago I tried to save stalks here according to his directions and the way of this country, and gave it up; but in a journey I made to Ohio I learned the better method I have indicated, and have followed it since with good success. If my corn is too large, I cut it one or two feet above ground. The way followed here is to make small shocks, 40 or 50 hills each. The result is they fall down early and they must haul them in early in the season, generally in a damaged state. The amount raised is so large that it fills up every barn and shed, has to be lifted up the lofts, and as they do it before husking it is very heavy work. To be profitable the stalks must be handled as little as possible, and the shocks opened only when the time comes to feed them out. I had not intended to send a reply to your N. C. as I thought anything I might say would come too late; but I could not consent that a man from Virginia should lay the blame on the kind of corn, when it belongs to the carelessness of the people. I am rather sensitive on the subject, as for some time I have been preaching the saving of stalks to my neighbors here, both in practice and speech, without much success yet, but I believe that one or two hard years, where they run short of feed in the Spring, will induce them to try it. But I could not bear that such a well meaning man as your N. C. Inquirer hould be discouraged. I find that all the Northern men here fall into the same error of trying to put corn into small shocks and hauling it in early, and as a result get disgusted with the undertaking.—*A Farmer, Knoxville, East Tenn.*

HARNESS BLACKING.—There is no better coloring matter for harness blacking than lamp black. It is coloring basis of all this kind of preparations. The trouble with them is that too much is used and the surplus being unabsorbed remains upon the harness and soils evrything that comes in contact with it. The following is the best way we know of to polish harness. First take it apart and wash thoroughly free from dirt and grease with hot water, soap, and sponge, then wipe dry as possible. Then with a mixture of tallow, sweet oil, and lamp black, made into a soft ball, rub the harness lightly, and then polish with a soft linen cloth. Repeat the process until no more of the polish will be absorbed, and rub with the cloth until it is no longer soiled. The preparations containing linseed oil, beeswax, and similar gummy articles, are to be avoided, for the reason that they cause dirt to adhere to the harness; those containing acids should be left alone, because they injure the leather.

That Pale, Yellow, Sickly-Looking ... is changed to one of freshness and health. Those **Diseases of the Skin, Pimples, Pustules, Blotches** and **Eruptions** are removed. **Scrofula, Scrofulous Diseases of the Eyes, White Swelling, Ulcers, Old Sores** or any kind of Humor rapidly dwindle and disappear under its influence. In fact it will do you more good, and cure you more speedily than any and all other preparations combined. Fail It is nature's own restorer! A soluble oxyd of iron combined with the medicinal properties of Poke Root constitutes all disagreeable qualities. It will cure any **Chronic** or **Long-Standing Disease** whose real or direct cause is bad Blood. **Rheumatism, Pains in Limbs** or **Bones, Constitutions broken down** by Mercurial or other poisons, are all cured by it. For **Syphilis**, or **Syphilitic taint**, there is nothing equal to it. **A trial will prove it. ASK FOR DR. CROOK'S COMPOUND SYRUP OF POKE ROOT.**

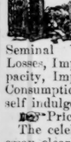
DR. CROOK'S WINE OF TAR!

Ten Years of public test has proved Dr. Crook's **Wine of Tar** to have more merit than any similar preparation ever offered to the public. It is rich in the medicinal qualities of Tar, and unequaled for diseases of the **Throat & Lungs**, performing the most remarkable cures. It effectually cures all Coughs and Colds. It has cured so many cases of **Asthma and Bronchitis**, that it has been pronounced a specific for these complaints. For **Pain in the Breast, Side or Back, Gravel or Kidney disease**, diseases of the **Urinary Organs, Jaundice**, or any **Liver Complaint** it has no equal.

It is also a superior Tonic,

Restores the Appetite, Strengthens the System, Restores the Weak and Debilitated, Causes the Food to Digest, Removes Dyspepsia and Indigestion, Prevents Malarious Fevers. Gives tone to your System.

MANHOOD: HOW LOST HOW RESTORED.



Just published, a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (without medicine) of Spermatorrhœa or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical incapacity, Impediments to Marriage, etc; also Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, *postpaid*, on receipt of six cents, or two post stamps.

DESCRIPTIVE CATALOGUE.

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,

ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalists and emigrants, as this section of North Carolina. In longevity and healthfulness, it will compare favorably with any where; and in easy and cheap transportation of products to market, in pleasantness of climate, in the sociability of the people, in cost for the land, and durability of soil, no section can equal it.

A railroad will soon be built to Norfolk, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing, farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A farm of 700 acres in Pasquotank County 10 miles from town, with fine two story dwelling, large barn, kitchen and other outhouses; as also, two other dwellings, barns and other houses at different points on the farm. This farm is all cleared but 150 acres, is free from swamps and other waste land, and is well adapted to raising corn, wheat, cotton, oats, &c. The price is 14,000 in easy payments.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balance in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

A valuable vacant lot in the town of E. City containing a half square, on the principal street in the town immediately opposite Court House quare. Has an iron fence in front, fine shrubbery, and is near the large new Hotel justerected, Price $2,000 in easy payments.

Also two fine farms in Pasquotauk county, 10 miles from E. City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Three farms—one of 100 acres, one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.

BANKRUPTCY.

THE FIFTY PER CENT. CLAUSE.

As there seems to be a misunderstanding in regard to the effect of the provision of the Bankrupt Act, commonly called the 50 per cent. clause, we publish the following extracts from the Act:

The second clause of the tairty-third section as amended by the Act of July 27, 1868, provides "that no discharge shall be granted to a debtor whose assets *shall not be equal* to fifty per centum of the *claims proved against* his estate upon which he *shall be liable as the principal debtor*, unless the assent or writing of a majority in number and value of his creditors *to whom he shall have become liable as principal debtor, and who shall have proved their claims*, filed in the case at or before the time of hearing of the application for discharge.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled—that the provision of the second clause of the thirty-third section of said act as amended by the first section of an act in amendment thereof, approved July 27th, 1868, shall not apply to those debts from which the bankrupt seeks a discharge which were contracted prior to January 1st, 1869.

The true meaning is not that a bankrupt must be able to pay fifty per cent of all his debts, before he can obtain a discharge, as many believe; but that his estate, in the hands of his assignee, at the time of the discharge, must *be equal, to fifty per cent.* of the amount of the debts.

1. That he owes as *principal*;
2. That have been *proved* against his estate in bankruptcy; and
3. That he has contracted since the 31st day of December, 1868.

Or, if a majority in number and value of those who have proved their debts, to whom the bankrupt is indebted as principal, on debts contracted subsequent to Dec., 31, 1868, consent in writing to the discharge—such bankrupt may be discharged forever from all his debts.

If a debtor, owing three thousand dollars as principal, twenty-five hundred of which indebtedness was contracted prior to January 1, 1869, and five hundred subsequent to that time, files his petition in bankruptcy, and all his creditors prove against him, and there are no assets in the hands of the assignee, the petitioner will be entitled to a discharge; but it will be a bar only to the debts contracted prior to January 1, 1869.—If no creditors prove, the discharge will be good against *all* debts, whether contracted before or after January 1, 1869.

The practical effect in bankruptcy cases generally is, that creditors fail to prove their debts, finding it ordinarily unprofitable. They have had, in a large majority of instances, heretofore the trouble and expense of making proofs, without receiving any return. The 50 per cent. bugbear, therefore when viewed in the light of the law and common-sense, disappears.

EXEMPTIONS IN BANKRUPTCY.

The exemptions under the 14th section of the Bankrupt Act are as follows:

1. Household and Kitchen furniture to an amount not exceeding $500,00
2. Wearing apparel of Bankrupt and family.
3. Uniform, &c., if he has been a soldier in the United States Army.
4. Personal property of the value of $500.00 to be selected by the Bankrupt.
5. A Homestead and the dwelling and buildings used therewith, not exceeding in value the sum of $1000,.00; or in lieu thereof, any lot in any city, town or village not exceeding in value the sum of $1000.000.
6. The reversionary interest in the Homestead lands.

In laying off the Exemptions in some Districts, the Assignees are ordered to accept and abide by, any assignment of a homestead which has been made by a Sheriff under the State laws; or which has been assigned upon the application of a debtor in accordance with the laws of North Carolina. Where no such assignment of homestead has been made, the assignee will proceed to set apart such homestead, and make the other exemptions according to the rules of the bankrupt Court.

The report of such exemptions when made by the assignee can be excepted to by the bankrupt or by any creditor, within twenty days after the allotment of such exempt property.

EFFECT OF THE DISCHARGE IN BANKRUPTCY UPON JUDGMENT.

It is the opinion of many of our best lawyers that the discharge in bankruptcy, discharges judgment debts existing against the bankrupt at the time of filing his petition, and that therefore the liens existing by virtue of such judgments, upon homesteads are wiped out, and cannot afterwards be enforced. In fine, that the practical effect of the discharge, is to leave a man, whose homestead was encumbered by judgments, free from all his debts, of every nature, and the owner in fee simple of such homestead.

Again many lawyers, equally prominent in the profession, are of opinion that such will not be the effect of the discharge. That the homestead, will still be liable under the judgments and that when it determines under our State laws, the judgment creditor may enforce his lien and collect his debts.

To place this matter beyound doubt, the following rule has been adopted for the benefit of petitioners who are not willing to run any risk.

That the petitioning debtor may file his petition in the District Court, addressed to Hon. Geo. W. Brooks, asking that the judgment creditor, or creditors, show cause why the liens existing in pursuance of their judgments should not be adjusted by said court, and their present value ascertain and fixed, and the amount when so ascertained, to be made the true value of such lien or liens by the decree or judgment of said District Court, in bankruptcy.

The right to adjust such liens, is exercised in pursuance of Sec. 1. of the Bankrupt Act.

FILING PETITIONS AND SCHEDULES.

Petitions and Schedules must be in duplicate. Petitioner should sign each sheet, except oath to schedules. It is not necessary to file sheets of schedules that are not used. All papers in bankruptcy must be sworn to before a Register in Bankruptcy, U. S. Commissioner, or Clerk of the court.

The following deposit to secure costs is required at time of filing Petition. Register $50, Clerk $20, Messenger $5. Bankruptcy blanks can be had of M. B. Culpepper, Elizabeth City, prepared in sets for Two Dollars per set.

The original papers in all such cases should be sent to T. W. Costen, Register, Elizabeth City, N. C.
